Robert Francis Kennedy Jr. is an American environmental attorney, author, and opponent of vaccination. Kennedy is a son of Robert F. Kennedy and nephew of former president John F. Kennedy. He is the president of the board of Waterkeeper Alliance, a non-profit environmental group that he helped found in 1999.

From #RobertFKennedyJr's Instagram post April 9th, 2020:

#Vaccines, for #BillGates, are a strategic philanthropy that feed his many vaccine-related businesses (including #Microsoft's ambition to control a global vac ID enterprise) and give him dictatorial control over global health policy—the spear tip of corporate neo-imperialism.

Gates' obsession with vaccines seems fueled by a messianic conviction that he is ordained to save the world with technology and a god-like willingness to experiment with the lives of lesser humans.

## REVEALED: Massachusetts Contact Tracing NGO part of Clinton Pedophile Ring in Haiti

Readers, if you've seen this already – our apologies. Since Trump's Executive Order of March 28th, we are seeing a return of your traffic that had been previously suppressed. A lot of your fellow readers didn't get to see many of our articles, starting with severe censorship and algorithmic repression starting around May 15th. We'll ... Continue reading

Promising to eradicate Polio with \$1.2 billion, Gates took control of India's National Advisory Board (NAB) and mandated 50 polio vaccines (up from 5) to every child before age 5. Indian doctors blame the Gates campaign for a devastating vaccine-strain polio epidemic that paralyzed 496,000 children between 2000 and 2017. In 2017, the Indian Government dialed back Gates' vaccine regimen and evicted Gates and his cronies from the NAB. Polio paralysis rates dropped precipitously. In 2017, the World Health Organization reluctantly admitted that the global polio explosion is predominantly vaccine strain, meaning it is coming from Gates' Vaccine Program. The most frightening epidemics in Congo, the Philippines, and Afghanistan are all linked to Gates' vaccines. By 2018, 3/4 of global polio cases were from Gates' vaccines.

In 2014, the #GatesFoundation funded tests of experimental HPV vaccines, developed by GSK and Merck, on 23,000 young girls in remote Indian provinces. Approximately 1,200 suffered severe side effects, including autoimmune and fertility disorders. Seven died. Indian government investigations charged that Gates funded researchers committed pervasive ethical violations: pressuring vulnerable village girls into the trial, bullying parents, forging consent forms, and refusing medical care to the injured girls. The case is now in the country's Supreme Court.

In 2010, the Gates Foundation funded a trial of a GSK's experimental malaria vaccine, killing 151 infants and causing serious adverse effects including paralysis, seizure, and febrile convulsions to 1,048 of the 5,049 children.

During Gates 2002 MenAfriVac Campaign in Sub-Saharan Africa, Gates operatives forcibly vaccinated thousands of African children against meningitis. Between 50-500 children developed paralysis. South African newspapers complained, "We are guinea pigs for drug makers"

## FLORES: Coronavirus Shutdown: The End of Globalization and Planned Obsolescence – Enter Multipolarity

By Joaquin Flores – The coronavirus pandemic has shown that the twin processes of globalization and planned obsolescence are deficient and moribund. Globalization was predicated on a number of assumptions including the perpetuity of consumerism, and the withering away of national boundaries as transnational corporations so required. What we see instead is not a globalization ... Continue reading

Nelson Mandela's former Senior Economist, Professor Patrick Bond, describes Gates' philanthropic practices as "ruthless" and "immoral".

In 2010, Gates committed \$10 billion to the WHO promising to reduce population, in part, through new vaccines. A month later Gates told a Ted Talk that new vaccines "could reduce population". In 2014, Kenya's Catholic Doctors Association accused the WHO of chemically sterilizing millions of unwilling Kenyan women with a phony "tetanus" vaccine campaign.

Independent labs found the sterility formula in every vaccine tested.

After denying the charges, WHO finally admitted it had been developing the sterility vaccines for over a decade.

Similar accusations came from Tanzania, Nicaragua, Mexico and the Philippines.

A 2017 study (Morgensen et.al.2017) showed that WHO's popular DTP is killing more African than the disease it pretends to prevent. Vaccinated girls suffered 10x the death rate of unvaccinated children.

Gates and the WHO refused to recall the lethal vaccine which WHO forces upon millions of African children annually.

Global public health advocates around the world accuse Gates of – hijacking WHO's agenda away from the projects that are proven to curb infectious diseases; clean water, hygiene, nutrition and economic development.

They say he has diverted agency resources to serve his personal fetish – that good health only comes in a syringe.

In addition to using his philanthropy to control WHO, UNICEF, GAVI and PATH, Gates funds private pharmaceutical companies that manufacture vaccines, and a massive network of pharmaceutical industry front groups that broadcast deceptive propaganda, develop fraudulent studies, conduct surveillance and psychological operations against vaccine hesitancy and use Gates' power and money to silence dissent and coerce compliance.

In this recent nonstop Pharmedia appearances, Gates appears gleeful that the Covid-19 crisis will give him the opportunity to force his third-world vaccine programs on American children.
